

MEND THE PAVEMENTS.

Col. Burgess to Introduce a Resolution to That Effect

AT THE COUNCIL'S NEXT MEETING.

The Pavements Must be Repaired With the Same Material They Are Constructed Of—No Inferior Substitutes Wanted—Other City Matters.

The agitation which has lately been given the subject of repairing the asphalt pavements, has not been in vain. Councilman James Burgess of the Fourth ward, told a Journal reporter today that he would, at the next council meeting, introduce a resolution ordering the city clerk to advertise for bids to keep the pavement in repair.

"I have been intending to do this for a long time," Col. Burgess says. "I know the pavement needs repairing and it is a shame it is in such bad condition. I have talked to the other members about it and tried to get them to do something, but they all make the same talk of 'No money, no money.' So far as I am concerned I am willing to have the repairs made out of the revenue or improvement funds, and take our chances of coming out all right at the end of the year."

A resolution such as Col. Burgess suggests, would be a step in the right direction. The council, however, should be under no obligations to let the contractor to the lowest bidder. Those quoting the lowest prices would certainly be the men handling the Indian Territory or "native" asphalt, which isn't asphalt at all.

The understanding of the lot owners who paid for the asphalt pavement is that it is to be kept in repair with exactly the same material that it was originally composed of. They will put up with no makeshifts or substitutes. There isn't any reason for beating about the bush and delaying the matter. Mend the pavements.

AN AGED OFFENDER.

An Old Woman of 84 Filed \$100 for Self-tang Bowers.

Rosetta Hattox, aged 80, was brought into police court this morning charged with illegally selling liquor. When ushered into the presence of Judge Ensminger she sat down on the prisoner's bench and looked about in a rather dazed manner.

When asked whether she would plead guilty to the charge, she did not seem to understand. Judge Ensminger then explained to her that if she had sold intoxicating liquor that she should plead guilty. She said she would plead guilty to selling beer.

She is locked up in the city prison and will probably have to stay there as she hasn't much of this world's goods.

The home of Rosetta Hattox is near the corner of Fifteenth and Washington streets. She has no shop but lives there with her husband who's older than she and carried on the joint business. Her husband was arrested with her yesterday but discharged. Her son ran away some days ago.

Sergeant Steele and Officer Campbell made the raid. Mrs. Hattox is the only female prisoner now locked up at the city prison.

CANADA PROSPEROUS.

London Papers Contrast It With U. S.—Bragg Tries Hard Times.

LONDON, March 28—Commenting editorially this morning on the proposed reductions in the Canadian tariff, the Times says that most of the reductions proposed are on commodities forming the staple trade with Great Britain. The paper congratulates the dominion ministry on its retreat from its attitude of high and dry protectionism, and says that counsels of economical expediency have doubtless been supplemented and enforced by the strong national feeling against annexation to the United States which prevails among an immense majority of Canadians.

The paper adds that it is by no means certain, however, that the Dominion movement will succeed in carrying its proposals, at least in the present parliament either in their original or modified form.

The Morning Post says: "It is pleasant for Englishmen to see that while the glutinous United States is changed into gloomy show canary subjects are enjoying a career of steady progress and hoping to rise among us some sparks of a sense of responsibility to the British flag rather than to risk their fortunes in American Republicanism."

Looking to the present condition of American affairs it is not surprising that the Canadian Liberals take every opportunity of discrediting their campaign claims and reputation of a tendency toward annexationist principles.
